PLEASE NOTE:

1. Hotspot may need to be charged before first use and regularly after that.
2. It normally takes 3~5 hours to fully charge the battery.
3. The battery discharges faster as additional devices connect to your hotspot.
4. Battery life depends on the network, signal strength, temperature, features, and active connection time.
5. It is normal for batteries to gradually wear down and require longer charging time.

If you have problems with your Hotspot please call - 720-423-3163

To connect to your hot spot:

1. Open the box your Mobile Hotspot came in and remove contents.

2. Plug the charger into the wall
3. Plug the charging cable into the charging port on the hot spot

4. Hold the Power key for 3 seconds until all LED indicators light up blue.

5. Turn on your chromebook - depending on the model this may be on the side or the keyboard.
6. Connect your chromebook to your Mobile Hotspot.

   a. In the bottom right corner, click on the time.

   b. Select Not Connected 🔄. Note: If you see your Wi-Fi network name and signal strength, your Chromebook is already connected to Wi-Fi.

   c. Press the Power key on the Hotspot until you see “Franklin T9 XXXX”. This will be our network name. Click on that name from the list on the Chromebook.

   d. Enter the password. This will be shown when you press the power key again. Click on connect.
