March 10, 2013

We are pleased to announce that we have updated vaccination recommendations for adults 19-70 years of age (Recommendations 201-14).

These recommendations are based on expert consensus using the best available evidence. The Advisory Committee on Immunization Practices (ACIP) reviews and approves the recommendations, which are then disseminated to the public in immunization program materials and web sites.

For more information, please visit our web sites: www.ImmunizeForGood.com or www.ColoradoImmunizations.com.
