To get your phone activated:
1. Press the small button on the right side of the phone to turn on.
2. Select your language. Press Start.
3. Wait for the Configuring services.
4. Once the screen says Activation complete. Click Next.
5. Click Skip on the Connect to Wi-Fi page.
6. Click Accept.
7. Set a PIN for the screen lock.
8. Click Accept and continue.
9. Click Next on the Motorola permission page. Enter your email address.

To use the Phone as a hot spot
1. Swipe up on the home screen. Search for Settings and click on the gear.

2. Select Network & internet
3. Select **Hotspot & tethering**

4. Select **Wi-Fi hotspot**

5. **Swipe right** to turn **On**.
6. Select **Advanced** to see your Hotspot password.

7. Select **Hotspot password** to view your default password or to change your password.

---

**On your Chromebook or computer:**

8. Click on the Wi-Fi fan in the bottom right of the screen. Click **Not connected**.

Search for moto e6 and enter the password you assigned on your phone.
9. Search for moto e6 and enter the password you assigned on your phone.

10. Enter the password you picked on your phone. Swipe right to allow any user on the Chromebook to use the hot spot for internet access.
